Graphit 33
Conductive coating
 Conductive coating. A graphite-based coating, providing a conductive layer to non-conductive media. Used to avoid electrostatic build-up in packaging materials and housings of electronic equipment, to repair damaged shields and as pre-coat for galvano-plating of non-conductive materials.

Order No	Content	Conduction electric/thermal
WOC.33.200	200ml	
WOC.33.400	400ml	

Kontakt 40
Service spray: Multi-purpose lubricant preventing
 Service spray: Multi-purpose lubricant preventing electrical and electronic malfunctioning caused by humidity, condensation and corrosion. Kontakt 40 is a very reliable penetrating oil, lubricant, water displacer and corrosion inhibitor. Restores low contact resistance and stops leakage currents. Equipped with 360° spray-valve facilitating up-side-down usage.

Order No	Content	Lubricants
WOC.40.200	200ml	

Multifoam 77
Foam Cleaner
 Contains highly active components for a powerful and effective cleaning. The foam is very stable, even on vertical surfaces it doesn't easily run off. A universal foam cleaner that can be used in industrial workshops, offices, around the house,... It cleans quickly and streak free all kind of surfaces : glass, metal, ceramic and plastic and is compatible with textile, rubbers and painted surfaces.

Order No	Content	Cleaning Agent
WOC.77.400	400ml	

Kontaflon 85
Grease- and silicone-free PTFE based dry lubricant
 Grease- and silicone-free PTFE based dry lubricant for plastics and other materials. Outstanding release agent for the moulding of plastics.

Order No	Content	Lubricants
WOC.85.200	200ml	

Lub Oil 88
Precision lubricant
 Precision lubricant. High-grade lubricating oil to lubricate instruments and equipment in precision mechanics. Totally acid and silicone free. Does not resinify, resulting in longer lubrication intervals.

Order No	Content	Lubricants
WOC.88.200	200ml	

KONTAKT 701 VASELINE SPRAY

Universal Vaseline spray-grease

Universal Vaseline spray-grease. A high viscosity lubricating and anti-corrosion agent for screw connections, cable clamps, plug and socket connectors. Contact grease for large sliding contacts and antenna constructions.

Order No	Content	
WOC.701.200	200ml	Lubricants

Contactual Cleaner and Preservation

KONTAKT IPA

Universal Isopropanol cleaner

Universal Isopropanol cleaner. High purity isopropanol-spray to clean magnetic heads, disk drives, rubber rollers, fine mechanics, optics, printed circuit boards and to remove water resistant inks.

Order No	Content	
WOC.IPA.200	200ml	Cleaners – Precision

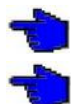

KONTAKT WL

Special cleaner and wash-spray

Special cleaner and wash-spray. Washes away dissolved oxides, grease and dirt (after usage of Kontakt 60). Effective agent for cleaning and degreasing electrical equipment, circuit boards and electronic components.

Order No	Content	
WOC.WL.200	200ml	Cleaners – Precision
WOC.WL.400	400ml	

EMI 35

Electromagnetic shielding

Electromagnetic shielding. A highly conductive coating for shielding against electro-magnetic interference and protecting against electrostatic discharge. Offers an effective solution for plastic housings and non-conductive materials.

Order No	Content	
WOC.35.200	200ml	Conduction electric/thermal

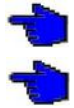

KONTAKT 60

Contact de-oxidiser

Contact de-oxidiser. Dissolves corrosion layers, restoring the metal contact. Optimum contact conditions are reached when residues dissolved using Kontakt 60, are rinsed off with Kontakt WL prior to protection with Kontakt 61.

Order No	Content	Cleaners – Precision
WOC.60.200	200ml	
WOC.60.400	400ml	

KONTAKT 60 Plus

Kontakt 60 Plus is specially designed for the

Kontakt 60 Plus is specially designed for the cleaning and protection of electrical and electro-mechanical parts.

Order No	Content	Cleaners – Precision
WOC.60PLUS	200ml	

KONTAKT 61

Contact lubricant & corrosion inhibitor

Contact lubricant & corrosion inhibitor. Builds a thin protective film, preventing corrosion and wear. Provides a low, stable contact resistance, without leakage currents or short circuits between the contact surfaces.

Order No	Content	Lubricants
WOC.61.200	200ml	

DEGREASER 65

Cleaner for electrical & mechanical equipment

Cleaner for electrical & mechanical equipment. Heavy duty cleaner and degreaser to be used whenever dirt, grease and oil-based substances interfere with the smooth running of electrical and mechanical equipment.

Order No	Content	Cleaners - Heavy duty
WOC.65.200	200ml	

SILICONE 72

For insulation, lubrication & protection

For insulation, lubrication & protection. A high-quality, silicone-based and viscous insulating and lubricating oil. Prevents spark discharge, stops leakage current and eliminates corona effect. Excellent dielectric properties. Ideal lubricant for plastic parts.

Order No	Content	Lubricants
WOC.72.200	200ml	

VIDEO 90

Magnetic-head cleaner

Magnetic-head cleaner. Special cleaner for tape recording equipment whenever abraded tape, dirt or other contaminants affect the sound and picture quality. Compatible with all commonly used materials in video and tape-recorders.

Order No	Content	Cleaners – Precision
WOC.90.200	200ml	

FLUID 101

De-watering fluid

De-watering fluid. A high performance and fast action moisture displacer, providing a high surface resistance. Instantly eliminates leakage currents and short circuits.

Order No	Content	Cleaners – Precision
WOC.101.200	200ml	

TUNER 600

Cleaner for consumer electronics

Cleaner for consumer electronics. Especially designed to clean electrical equipment, electronic components and PC-boards of high frequency equipment with sensitive plastic parts.

Order No	Content	Cleaners – Precision
WOC.600.200	200ml	

KONTAKT GOLD 2000

Protective lubricant for metal-plated contacts

Protective lubricant for metal-plated contacts. For long-lasting lubrication and protection of connectors and other electromechanical contacts, coated with gold, silver, tin, rhodium, palladium, etc.

Best.Nr.	Inhalt	Lubricants
WOC.2000.200	200ml	

ZINK 62

High-purity zinc coating

High-purity zinc coating. Actively fights rust and corrosion by its galvanic properties. Excellent corrosion resistance of ferrous metals through cathodic protection, even when scratched or damaged. Forms a tough, flexible zinc coating.

Order No	Content	Anti - Corrosion Products
WOC.ZI.400	400ml	

PLASTIK 70

Universal conformal coating for printed circuit

Universal conformal coating for printed circuit boards. A quick drying, transparent acrylic resin based, transparent insulating coating. Protects against normal atmospheric influences. Fixes vibrating components.

Order No	Content	Anti - Corrosion Products
WOC.70.200	200ml	
WOC.70.400	400ml	

URETHAN 71

Conformal coating

Conformal coating. Single component, urethane based, insulating and protective coating, providing a long-lasting flexible seal to protect against moisture and environmental influences.

Order No	Content	Anti - Corrosion Products
WOC.71.200	200ml	

SURFACE 95

Office equipment cleaner

Office equipment cleaner. A highly active cleaner ideal for housings, keyboards, copiers, furniture and other office equipment. Removes grease, dirt and stains from all plastic and metal surfaces, leaving anti-static film.

Order No	Content	Cleaners – Precision
WOC.95.200	200ml	

ANTISTATIK 100

Against electro-static charge

Against electro-static charge. Surface-active product preventing accumulation of static electricity on various surfaces. Leaves ultra-thin invisible anti-static film. ESD-protection for worktable and packaging.

Order No	Content	Speciality
WOC.95.200	200ml	

SOLVENT 50 (LABEL OFF 50)

Label remover

Label remover. The ideal solution for removing self-adhesive paper labels from glass, metal, china, carton, wood... (for plastics, test prior to use).

Order No	Content
WOC50.200	200ml

Cleaners – Precision

PRINTER 66

Printer-head cleaner

Printer-head cleaner. Dissolves ink residues, grease soiling and paper-dust. Cleans rubber rollers. Antistatic additives help to prevent damage due to electrical discharge.

Order No	Content
WOC66.200	200ml

Cleaners – Precision

SCREEN 99

Anti-static screen cleaner

Anti-static screen cleaner. Effective anti-static foam cleaner to remove dust, grease, nicotine and fingerprints from screens.

Order No	Content
WOC99.200	200ml

Cleaners – Precision

CLEANER 601

Mild multi-purpose cleaner

Mild multi-purpose cleaner. Cleaning of electronic components, PC-boards and precision mechanics, especially when sensitive plastics such as polystyrene and polycarbonate are involved.

Order No	Content
WOC601.200	200ml

Cleaners – Precision

SCREEN TFT

Screen TFT is a special foam cleaner

Screen TFT is a special foam cleaner for TFT-screens and LCD displays. This cleaner contains no solvents such as alcohol or Ammoniac and is therefore suitable for cleaning TFT -screens and housings of a PC, Notebook, Laptop, Camcorder, GPS system,... Screen TFT can also be used for cleaning Touch Screens, CD's, scanners, copiers,...

Order No	Content
WOCFTT.200	200ml

Cleaners – Precision

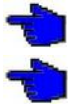

DUST OFF HF (HIGH FLOW)

Heavy-duty air duster

Heavy-duty air duster. The high flow rate valve ensures a powerful blowing action. Especially designed for industrial heavy-duty applications. A non-flammable pressurised gas, designed for applications where absolute safety is a must, it can even be used on energised equipment, when there is a risk for discharges.

Order No	Content	Cleaners – Precision
WOC67S.200	200ml	
WOC67S.400	400ml	

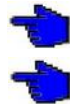

FREEZE 75

Instant cooling of parts

Instant cooling of parts. Cooling agent for thermal fault location. Provides an instant solution by cooling down circuitry to -50°C. Intermittent short circuits or interruptions in condensers, resistors, integrated circuits are quickly discovered.

Order No	Content	Speciality
WOC75S.200	200ml	
WOC75S.400	400ml	

Making PCB Boards

FLUX SK 10

Solder-active varnish

Solder-active varnish. High-grade soldering varnish manufacturing, repair and service purposes. Prevents oxidation on printed circuit boards during intermediate storage.

Order No	Content	Anti - Corrosion Products
WOC.10.200	200ml	
WOC.10.400	400ml	

POSITIV 20

Photo-sensitive lacquer

Photo-sensitive lacquer. To copy transparencies directly onto coated circuit boards, providing high resolution. Also usable for making heliogravures and to transfer photographic elements.

Order No	Content	Speciality
WOC.20P.200	200ml	

TRANSPARENT 21

Transparent transfer spray

Transparent transfer spray. Wiring diagrams and drawings can be made transparent and translucent to UV-light, enabling the direct transfer onto surfaces treated with Positiv 20.

Order No	Content
WOC.21.200	200ml

Speciality

KONTAKT PCC

Flux residues dissolver

Flux residues dissolver. Removes flux residues from electronic assemblies, equipped with applicator brush attached for mechanical support. Compatible with solder resist coatings and commonly used printed circuit board base materials and components.

Order No	Content
WOC.LR200	200ml
